

“The workstations, bedrooms & kitchen were all just right. You’ve done a wonderful job creating a homey yet functional space for crafters.”

“People slept well and appreciated the fluffy towels, afghans and snuggly blankets!”

Hi Everyone!

Welcome to my place. With a passion for architecture, restoration, and spending time with family and friends, I’ve created a space that not only I love, but one that I hope you will enjoy as well.

Equipped with all your necessities, I wanted to create a functional yet comfortable space to enjoy your favorite hobby, time with friends, and of course, the occasional glass of wine! Perfect for weekend crafting retreats, quilting, scrapbooking, or even just a quiet getaway, I hope that you find my place as beautiful, welcoming and relaxing as I do.

I can’t wait for you to visit again, and again, and again.
